

PACKAGED INCLUSION ADVICE NOTES

SOLAR PANELS & INVERTER

A up to 6.6kW Solar Inverter system will be provided by Rosehill Waters and installed on the Property by the Rosehill Waters nominated contractor to suit your construction process, which includes:

- a. 6.6kw Solar Panels with a manufacturer's warranty;
- b. 5kW Inverter with manufacturer's warranty (Inverter);
- c. 2 x 170 Litre Heat-pump Hot-water units with manufacturer's warranty,

The installation of the Solar Inverter System provides:

- i. the maximum number of panels provided will depend on the design of the Lot owner's home, its roof and its relevant orientation;
- ii. the location of the Inverter unit on the Property will be nominated by the Rosehill Waters contractor in consultation with the Lot owner, and the Lot owner will need to ensure that their builder designs and constructs any structures which are required to support and protect the Solar Inverter System;
- iii. the contractor will install all cable and supply power connections for any necessary power required.
- iv. following installation, the Lot owner and/or their builder accepts responsibility for securing and protecting the Solar Inverter System against theft, damage & vandalism.
- v. any warranties in relation to the installation or manufacture of the Solar Inverter System shall be subject to terms and conditions, and Rosehill Waters will not be liable in any way for any warranty claim made by the Lot owner;
- vi. The Lot owner acknowledges that there is 10 year warranty period for faulty workmanship on the installation of the Solar Inverter System.

Should you have any difficulties, then please email admin@rosehillwaters.com.au but please ensure you contact the business representative in the first instance on greg@greenlogic.net.au
